Exhibitor and Patron Prospectus

IEEE-EMBS 2021 will be co-organized with IEEE-EMBS BSN 2021 (2021 IEEE Body Sensor Network) virtually, from 27-30 July, 2021. It will provide a unique forum to showcase enabling technologies of devices and sensors, hardware and software systems, predictive models, databases, and big data analytics and machine learning that optimize the acquisition, transmission, processing, monitoring, storage, retrieval, analysis, visualization and interpretation of vast volumes of multi-modal biomedical data, as well as related social, behavior, environmental, and geographical data. It will also demonstrate the deployment of BHI informatics solutions that integrate key technologies including machine learning, artificial intelligence, Internet of Things (IoT), mHealth, e-Health, human computer interface, telemedicine, bioinformatics, sensors, imaging, and public health monitoring, to achieve patient-centric and outcome-driven effective health care.

BHI-BSN 2021 will provide dedicated networking social events and special topics workshops to encourage BHI-BSN 2021 participants to exchange knowledge and insights, and to cultivate collaborations.
